PREFACE

No city or town of today can expect to prosper or progress without making adequate municipal improvements; without such it will never be looked upon as being any good, or having any future; but simply will be called dead or a has-been. In business circles, the City Directory is just as important to the health and vigor of a business, whatever line it may be, as municipal improvements are to the health and vigor of a town; they both go hand in hand; they both mean progress; for they both stand for

EFFICIENCY

which fact is being more vividly demonstrated every day; for there are thousands of City Directories in use now, where there were to be found comparatively very few only a very short period ago.

The business world has awakened to the realization of this need; and there are few towns of any consequence that do not have a City Directory. Just how up-to-date or complete the Directory is, depends in most cases upon the support accorded to the publishers, provided, of course, that they know their business.

It is an old saying that you can judge a man by the clothes he wears—whether this be true or not matters little; we all know that it is generally done; often no doubt to the disadvantage of some one. Just as much as man is judged by his clothes, just so much is the business life and activities of a town or community judged by its Directory; because the Directory is the most complete and the only recognized standard book of reference regarding the citizens of a community, their address, occupation or kind of business in which they are engaged. When you consult a Directory of a town, you can easily determine if it is up to the standard, and if you find it to be well patronized, you need not be told that it belongs to a live community—the fact is self-evident.

It is therefore with pleasure that we present Vol. II of the Bradentown, Fla., City Directory, for the fact is self-evident, that we are doing business in a live community.

FLORIDA-PIEDMONT DIRECTORY CO.,
Asheville, N. C.

MANATEE COUNTY'S PIONEER PUBLIC UTILITY

The Peninsular Telephone Co. Operating Exchanges at Bradentown, Manatee, Palmetto, and Sarasota. Also covering the County with a system of country lines. No County south of the Ohio River has as much underground and submarine cable per population as Manatee. We also have the largest number of telephones per thousand population.

TOLL LINE SYSTEM

Our Toll Line System is far in advance of our needs. We have installed what is known as the **"rapid fire system"** by which in connection with our Automatic Exchange in Tampa we can give you almost instantaneous connection with our Tampa Subscribers direct from here. The larger copper wires used by us in our Toll Line System make it possible for us to furnish service to New York and Chicago.

McFarland Sheet Metal Works

Galvanized Tanks, Gutters, Cornice, Skylights, Conductors, Ridge Roll, Etc.

Job Work in Tin, Copper, Sheet Iron and Zinc

MANASOTA LAND & TIMBER CO.
Sarasota, Fla
We feel as you do, Mr. Homeseeker, that you are going to try to get the best, and we cheerfully invite you to inspect other lands, and before making your decision see us. Our lands lie high, have pure water from flowing artesian wells.

Manatee, Florida

PREFACE

"Beautiful Manatee" and "The Land of Manate" are terms specifically applicable to this little city and its immediate surroundings. Here will be found all that is expressed or implied in these familiar designations as pertaining to delightful climate, fertile vegetable lands, abundant fruit production, healthful and attractive homes, enjoyable boating and fishing opportunities, and convenient transportation facilities.

In the important matters of schools, churches, stores, hotels, local newspaper, bank and professional services, Manatee is prepared to meet the needs of all its residents, permanent or temporary. The number of its permanent residents and of winter visitors is steadily increasing from year to year. A large proportion of attractive homes are owned and occupied by families who have recently come from the North. At the same time many of its most estimable and progressive citizens are of old Florida families dating back to the very earliest settlements in the state. The available rooms for winter visitors, while incraesing in number from year to year, has never, of late, been sufficient to meet the growing demand. The city offers to homeseeker, to tourist, to agriculturist, to investor, attractions that are well worth looking into. Northern capital can here be profitably invested in grove or trucking lands, or in the erection of moderate priced homes or of rooming houses for the growing population.

The present town has 1,800 population. Under a new charter it is incorporated as a city with virtually a commission form of government. Its main streets are paved with brick with granite curbing. The city has a modern and complete sanitary sewer system, and a water system furnishing probably the best water in the State. The surrounding agricultural land cannot be excelled in Florida for fruit or vegetable growing or for general farming. It is certain that Manatee, attractive and beautiful already, will make notable progress in the next few years.

MANASOTA LAND & TIMBER CO.
Sarasota, Fla
We feel as you do, Mr. Homeseeker, that you are going to try to get the best, and we cheerfully invite you to inspect other lands, and before making your decision see us. Our lands lie high, have pure water from flowing artesian wells.

Palmetto, Florida

PREFACE

Palmetto is a prosperous city of 2,700 inhabitants, located on the north bank of the beautiful Manatee River, which at this point is over a mile in width. Its people are progressive and believe that the best is none too good for their homes. Hence they have provided liberally all the conveniences of the modern city. Many miles of brick-paved streets and concrete sidewalks, electric lights for streets and houses, municipal water works and a complete sewer system are some of the features that add to the comforts of urban life here.

A wide-awake Board of Trade, a live Woman's Club, and a progressive newspaper are putting Palmetto more and more on the map.

Several churches, a modern high and graded school and a well equipped public library contribute to the spiritual and intellectual welfare of the community.

Palmetto has three factories worthy of mention. A cigar factory, where the well-known "Palmetto Straights" are made; an ice factory, with a daily capacity of 80 tons; and the Palmetto Novelty Works, which is conceded by lumber men to be the best equipped plant for its size in the state. There is nothing made of wood that cannot be turned out of this factory.

Palmetto's prosperity rests mainly on the agricultural wealth that abounds in the fertile fields which stretch back for miles from the banks of the Manatee. Two of the largest grape-fruit and orange groves in the world lie just outside the city, and numerous small groves of from five to twenty acres are found in all directions. Thousands of acres are planted annually in tomatoes, lettuce, peppers, celery and other vegetables that tempt the Northern appetite, while the wintry blasts are blowing. The products from these fertile fields make Palmetto the greatest shipping point in South Florida. Hundreds of car loads of fruit and vegetables leave this point annually, and the returns furnish the sinews that establish the permanence of Palmetto's prosperity.

Hundreds of acres of yet uncleared lands near here still await the sturdy settler who wishes to locate his home close to nature. Palmetto welcomes you!

MILLER & MAYFIELD

PREFACE

No town on Florida's west coast has a more attractive setting than Sarasota and none has so many natural advantages to commend it for a toruist resort. Its loction on a crescent-shaped bay, more beautiful than Naples, offers safe harbor for boats and fishing craft and is only two miles from where the blue waters of Mexico's Gulf break upon the white beaches of the verdant, outlying keys. In the bay, at the pass or out in the gulf no better fishing waters can be found in the State, whether one wishes to drop a line for the perch or grunts, fish for the wily Kings, troll for the redfish, go out of sight of land for the grouper or match strength and skill with the silver tarpon; and among the wealth of sea foods are found the oyster, the clam and the stone crab.

Sarasota is high and dry, no healthier place can be found in Florida. The refreshing gulf breezes temper the summer's warmest days and the nights are always delightfully cool and pleasant.

One mile of seawall is built along the bay front with a wide bouevard, beautifully parked. There are 10 miles of concrete asphaltic and brick paved streets and 14 miles of sidewalks within the city limits. Sarasota owns its own water works and its electric light plant, it has a high school, employing thirteen teachers, seven denominations are represented in its churches, eleven secret orders are among its organizations, a progressive Woman's Club is a factor in the social and civic life of the city, and two newspapers tell of its resources and advantages. In addition to these it has several hotels and all the business houses that a population of 3,000 demand.

Sarasota has two daily trains from Tampa which is 70 miles north. The district is now putting down roads from a $250,000 bond issue and a movement is being considered to build a golf course, costing $25,000 and a recreation pier at a cost of $18,000.

Sarasota is the coming city of the West Coast. To see is to believe—
COME AND SEE!

*
* * * * * * * * * *

Post Office. Has the largest individual celery farm in the State, and this area of land is capable of producing maximum crops and a progression of them during the twelve months. The rich muck lands, which are being drained, have attained acreage yields of great value. The high pine lands for both citrus fruit and an adapted line of vegetables are equally as attractive. Several thousand acres are under development, and this spot will soon be surrounded by many well developed farms, yielding the long line of vegetables for which the section is famous.

Albritton Thos A & wife, far
Andrews A D & wife, far

Mr. Homeseeker, we will help you to get started, we will not only sell you land, but will clear your land, plant trees, erect houses and drill wells; let us show you our home sites in the wonderful section of Manatee County.

ELLENTON, FLA.

Post Office. The Ellenton Hammock is famed. The soils are of the very best type, and their development has resulted in prosperity for those who early took them up and set them to work growing citrus fruit and a continuous line of vegetables. Has the largest Fuller's Earth Works in the United States.

Advertising and Sales Managers

Suppose there were a community catalog of your city, where you could find the name, address and occupation of every citizen in your city, would it be WORTH anything to you?
Well! There is such a catalog, indexed and properly classified for instantaneous use.
If you will grasp the opportunity which is yours, you will buy a copy at once.. It is THE CITY DIRECTORY
